

**All Tuskegee University online courses are semester-based and operate much like a typical Tuskegee University course, except delivery will be online.**

- Courses will be taught by Tuskegee University faculty and instructors.
- Course(s) can be used toward Degree requirements (including Free Electives).
- **IMPORTANT:** Ask your Academic Advisor to recommend Online course(s) that will count towards your Degree requirement before registering.
- Prerequisites must be satisfied. Ex. ENGL 101 ("C" or higher) is a prerequisite for ENGL 102; MATH 107 ("C" or higher) is a prerequisite for MATH 108
- **Maximum credits during Summer semester: Nine (9)**
- Tuition and fees will be posted via the Bursar's website and will include all Tuskegee University fees as applicable. Some mandatory fees will apply to these courses; please see the Bursar's website at [www.tuskegee.edu/onestop](http://www.tuskegee.edu/onestop) for detailed information.
- Online summer courses taken at Tuskegee University are used in computing the GPA.

## For More Information:

Office of Distance Education and Online Learning  
 John A. Kenney Hall, Rm 70-131  
 1200 W. Montgomery Road  
 Tuskegee, AL 36088  
 Phone: 334-724-4704

*If you have further questions, feel free to stop by the Office of Distance Education and Online Learning during business hours. Monday - Friday 8:00 am - 4:30 pm*

## FAQ's

**Are online programs and courses comparable in quality to on-campus programs and courses?**  
 Yes. The same faculty and instructors that teach on the Tuskegee University campus teach Tuskegee University online courses. This means that the rigor and quality of the content, as well as the course load is the same as the on-campus classes.

**What type of computer do I need?**  
 Depending on modality and course of study, you'll need access to specific hardware and software. If you have any questions call our technical support team at 334-724-4704.

**I use a Macintosh. Can I still take courses at Tuskegee University e-learning?**  
 Yes!

**How do I access my online course?**  
 -Login to: <http://tuskegee.blackboard.com>  
 Contact the Office of Distance Education and Online Learning if you need assistance at 334-724-4704. Monday - Friday 8:00 am - 4:30 pm

**How do I find and enroll in classes?** To register for these sections, please log onto [www.tuskegee.edu/tigerweb](http://www.tuskegee.edu/tigerweb), and search for distance learning sections using the acronym DL in the "Section" box of the Search for Sections screen.

**Search for Sections**  
 To register for these sections, please log onto [www.tuskegee.edu/tigerweb](http://www.tuskegee.edu/tigerweb) and search for distance learning sections using the acronym DL in the "Section" box of the Search for Sections screen.

### Delivery Method & Required Technology

- You must also have high-speed Internet access and are required to follow specific technical requirements.
- Course delivery will be facilitated through <http://tuskegee.blackboard.com> Tuskegee's learning management system for online courses.
- You are expected to have general experience in computer applications such as word processing, spreadsheets, database, Internet research, media presentations, and email communication.

# 2022 ONLINE SUMMER COURSES\*

Preregistration for  
 Summer Session 2022  
 Preregistration Period:  
**Tue Apr 21 – Tue May 31**

\*Course list is subject to change. A minimum of 10 students must enroll per course for a course to be officially offered for the summer semester.

**ANPH 0201 ANATOMY & PHYSIOLOGY I 4 Credit hours**

These courses cover a two-semester sequence in which human anatomy and physiology are studied using a body systems approach, with an emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Dissection, histological studies and physiological exercises are included in the laboratory. Prerequisite(s): CHEM 0221 and CHEM 0223 or CHEM 223 and CHEM 0224; BIOL 0111, BIOL 0120 and BIOL 0121 or BIOL 0230 and BIOL 0231

**ANPH 0202 ANATOMY & PHYSIOLOGY II 4 Credit hours**

These courses cover a two semester sequence in which human anatomy and physiology are studied using a body systems approach, with an emphasis on the interrelationships between form and function at the gross and microscopic levels of organization. Dissection, histological studies and physiological exercises are included in the laboratory. Prerequisite(s): ANPH I

**BIOL 0111 GENERAL BIOLOGY I 3 Credit hours**

An introductory course open to non-biology or non-science majors in which particular emphasis is given to the impact of biological phenomena on human related problems. Includes main aspect of cell structure, function, reproduction, and control mechanisms. Aspects of evolution and mechanisms of heredity are also discussed. The introduction to ecology stresses the effects of man and man-made products on regional and world-wide ecological systems.

**BIOL 0230 CELL AND GENETIC BIOLOGY 3 Credit hours**

A sophomore level course designed specifically for science-oriented curricula and students seeking to fulfill the general science requirement. The course introduces the student to the chemical basis of life, contemporary concepts of the morphology and physiology of cell membranes, cellular organelles and basic genetic principles.

**BUSN 0250 INTRODUCTION TO BUSINESS ANALYTICS 3 Credit hours**

This course provides an introduction to the field of business analytics through extensive use of data, statistical and quantitative analysis, exploratory and predictive models, and fact based management to drive decisions and actions.

**BUSN 0301 PRINCIPLES OF FINANCE 3 Credit hours**

This is an introductory course in corporate finance which aims to familiarize the students with the key concepts in the financial management including time value of money, risk and return, financial statement analysis, and asset valuation models. The central theme of the course is how to maximize the value of the firm.

**BUSN 0302 INTERMEDIATE FINANCIAL MANAGEMENT 3 Credit Hours** This is the second course in corporate finance. The main topics to be covered in this course include working capital management, capital budgeting, capital structure and leverage, dividend policy, and mergers and acquisitions. Mini-cases and spreadsheets are used to help students to learn the financial decision-making process.

**BUSN 0331 PRINCIPLES OF MANAGEMENT 3 Credit Hours**

This course examines the functions of management which comprise management theory. The concepts of authority, responsibility and organizational objectives are emphasized. Both profit-seeking and non-business enterprises are discussed.

**BUSN 0406 PRODUCTION AND OPERATION MANAGEMENT 3 Credit hours**

This course explores the purpose of operations as it impacts decision-making and manufacturing and service practices. This course emphasizes the long-term, strategic impact of managing operations as well as how operations decisions impact and intersect with the other business disciplines and functions. Prerequisite(s): MATH 0107 and Junior standing.

**BUSN 0416 HUMAN RESOURCES MANAGEMENT 3 Credit hours**

This course offers a survey of the theories, principles, policies, and procedures of management as applied to planning, organizing, recruiting, selecting, developing and maintaining a labor force in an organization. Prerequisite(s): Junior Standing

**CHEM 0320. ORGANIC CHEMISTRY I. 1st Semester, Summer. Lect. 3, 3 credits.** Nomenclature, physical properties and reactions of carbon compounds; reaction mechanisms; spectroscopy as an aid to the elucidation of molecular structures. Prerequisites: CHEM 0232 and 0234. Corequisite: CHEM 0322.

**ECON 0201. PRINCIPLES OF ECONOMICS. 1st and 2nd Semester and Summer. Lect. 3, 3 credits.** The first part of this course sequence deals with the aggregate volume of the output of the American Economy, with the extent to which its resources are employed, with size of the national income, and with the "general price level." This course explores the economic behavior of aggregates on a national scale. Substantial time is spent analyzing aggregate employment, income, output, and inflation. Studying textbook style problems and techniques constitutes an integral part of the class.

**ECON 0202. PRINCIPLES OF ECONOMICS. 1st and 2nd Semester and Summer. Lect. 3, 3 credits.** This course is the second part of two sequence of principles of economics and deals with division of total output among competing uses. It considers problems of income distribution. Its interest is in relative prices of particular goods and services. This course explores the economic behavior of individuals and firms. The students will gain sufficient knowledge and technique to prepare them for advanced course work in economics, finance, management, supply chain management, and other business courses.

**ECON 0300. INTRODUCTION TO STATISTICAL ANALYSIS. 1st Semester. Lect. 3, 3 credits.** This course deals with the collection, presentation, and interpretation of data. It is concerned with the measures of location, measures of dispersion, probability and probability distributions. Prerequisite: MATH 0107.

**ECON 0352 MICROECONOMICS 3 Credit hours**

This course analyzes the behavior of business firms, industries, consumers and resource owners. It investigates how the market system determines the composition of national product, the amount of the productive factors used by firms and industries, and the distribution of income. It evaluates the extent to which various market structures (e. g. pure competition, oligopoly, etc.) function in the interest of social welfare. Prerequisite(s): ECON 0201, ECON 0202 and MATH 0106 and MATH 0107.

**ECON 0353 MACROECONOMICS 3 Credit hours**

An introduction to recent theory with particular emphasis on the determination of aggregate income, employment, output and price levels. The Keynesian and classical systems are contrasted, along with recent literature on the subject. Prerequisite(s): ECON 0201, ECON 0202, and MATH 0227.

**ENGL 0102. ENGLISH COMPOSITION II. 1st and 2nd Semesters, Summer. Lect. 3, 3 credits.** A continuation of ENGL 0101 emphasizing persuasion, critical analysis of literature of various genres, library and Internet research techniques, and the research paper. Prerequisite: ENGL 0101.

**ENGL 0201 ADVANCED COMPOSITION 3 Credit hours**

A one-semester course emphasizing modern rhetoric and its problems; particular emphasis on the modes of exposition, such as definition, analysis, and comparison, and on the techniques of persuasion. Expository prose models are read and analyzed. Prerequisite(s): ENGL 0102.

**ENGL 0203. PROFESSIONAL AND TECHNICAL WRITING. 2nd Semester, Summer. Lect. 3, 3 credits.** A one-semester writing course designed to enable students to acquire and to demonstrate proficiency in handling basic technical communications (including business correspondence) and various types of exposition (especially those pertinent to technical reports). Prerequisite: ENGL 0102.

**ENGL 0204. CRITICAL READING AND TECHNICAL WRITING. 1st Semester. Lect. 3, 3 credits.** This course is designed to help students develop and improve technical communication skills in critical reading and technical writing, especially as they apply to professional and technical contexts. The course emphasizes a reader-centered approach to interpreting and composing documents employing technical vocabulary. Prerequisite: ENGL 0102.

**ENGL 0220. PRINCIPLES OF SPEECH. 2nd Semester. Lect. 3, 3 credits.** An analysis of the basic principles of communication focusing on communicative processes involving the speaker, the situation, the message, the channel, and the receiver.

**ENGL 0327. PUBLIC SPEAKING. 1st and 2nd Semesters, Summer. Lect. 3, 3 credits.** Preparation and delivery of speeches to audiences.

**HIST 0103. WORLD CIVILIZATION. 1st and 2nd Semesters, Summer. Lect. and Disc. 3, 3 credits each.** A study of the origins and development of world civilizations. Particular emphasis is given to the interrelationship among the various civilizations and to the development of ideas and institutions most relevant to the modern world. History 0103 concludes about 1650 A.D. History 0104 covers the period from about 1650 A.D. to the present.

**HIST 0104. WORLD CIVILIZATION. 1st and 2nd Semesters, Summer. Lect. and Disc. 3, 3 credits each.** A study of the origins and development of world civilizations. Particular emphasis is given to the interrelationship among the various civilizations and to the development of ideas and institutions most relevant to the modern world. History 0103 concludes about 1650 A.D. History 0104 covers the period from about 1650 A.D. to the present.

**2022 ONLINE SUMMER COURSES \***

**\*Course list is subject to change. A minimum of 10 students must enroll per course for a course to be officially offered for the summer semester.**

**HIST 0105. THE BLACK EXPERIENCE IN AMERICAS. 1st and 2nd Semesters, Lecture and discussion, 3 credits.** This course will provide an inquiry into the background and development of African Americans on the continent of North and South America. Emphasis will be placed on the black experience in slavery, there in the political, social and economic development of the United States, and social and cultural movements in the North and South America. Prerequisite for History Majors: HIST 0103 and HIST 104; Prerequisite for non-History Majors: HIST 103, a choice to select HIST 104 or HIST 105.

**HIST 0210 HISTORY OF THE UNITED STATES. 1st and 2nd Semesters respectively, Summer. (HIST 0210). 1st and 2nd Semesters, Summer (HIST 0211 only). Lect. and Disc. 3, 3 credits each.** A study of social, political and economic developments in North America from the Age of Discovery to present times. History 0210 concludes with the end of Reconstruction, 1877 and History 0211 covers the period from 1877 to the present. Prerequisite: ENGL 0101.

**MATH 0107. COLLEGE ALGEBRA & TRIGONOMETRY I. 1st and 2nd Semesters, Summer. Lect. 4, 4 credits.** Sets; real numbers; absolute value; inequalities; relations and functions; polynomial functions, systems of linear equations. Prerequisite: Placement or minimum grade of "C" in MATH 0106.

**MATH 0108. COLLEGE ALGEBRA & TRIGONOMETRY II. 1st and 2nd Semesters, Summer. Lect. 4, 4 credits.** Circular functions; trigonometric functions; vectors in the plane; complex numbers; theory of equations; analytic geometry. Prerequisite: Minimum grade of "C" in MATH 107 or Departmental Approval.

**MATH 0227. INTRODUCTORY CALCULUS. 1st and 2nd Semesters, Summer. Lect. 4, 4 credits.** Primarily designed for students in Architecture and the Social Sciences. Emphasis is on application of elementary differentiation and integration. Prerequisite: Minimum grade of "C" in MATH 0107 or MATH 0110 or Departmental Approval. Students will not be allowed to use both MATH 0207 and MATH 0227 to fulfill degree requirements in any major.

**MATH 0106L INTERMEDIATE ALGEBRA LAB**

**PHIL 0201 INTRODUCTION TO PHILOSOPHY 3 Credit hours**

An introductory survey of the subject areas, methods, vocabulary, and historical development of philosophy. The objective of the course is to provide an elementary knowledge of philosophy in general.

**PHIL 0202. INTRODUCTION TO LOGIC. 1st and 2nd Semesters, Summer. Lect. 3, 3 credits.** The study of formal logic including both traditional (Aristotelian) and symbolic logic. The course considers the relation of logic to natural languages and to information sciences, and the general historical development of logic. The instruction emphasizes fundamentals of argument construction, proofs, and logical fallacies. An additional objective is to encourage students' improvement in reasoning skills.

**PHIL 0203. INTRODUCTION TO ETHICS. 1st Semester, Summer. Lect. 3, 3 credits.** This course is an examination of the major ethical theories that have been developed throughout the history of Western philosophy. These theories are given a philosophical context. The course will concentrate on the relationship of traditional ethics to current ethical problems

**PHYS 0301. ELEMENTARY GENERAL PHYSICS - I. 1 and 2 Semesters, Summer. Lect. 3, 3 credits.** Basic concepts and theories of measurements, mechanics, properties of matter, heat, and thermodynamics with applications in biological sciences. The course is designed for students desiring more advanced algebra based physics course. To be taken in sequence with Phys. 0302. Prerequisite: MATH 0107, Co-requisite: PHYS 0303

**POLS 0200 INTRODUCTION TO POLITICAL SCIENCE 3 Credit hours**

An introduction to the nature and principles of political science. A survey of methods, assumptions, and scope of the systematic study of political institutions and processes vis-a-vis the current trends in political analysis.

**POLS 0350. STATE AND LOCAL GOVERNMENT. On Demand. Lect 3, 3 credits.** Development of state constitutions, the political, administrative and judicial systems of state and county government; and relations between state and local government, with special emphases on Alabama. Prerequisite: Permission of Instructor.

PSYC 0270 INTRODUCTION TO PSYCHOLOGY 3 Credit hours

This course surveys the field of psychology with a systematic study of the history, experiments, and theories regarding human behavior.

PSYC 0272. CHILD PSYCHOLOGY. 1st and 2nd Semesters, Summer. Lect. 3, 3 credits. Human development from conception through late childhood. Emphasis is on general developmental characteristics and upon general determinants of the developmental process.

PSYC 0377. HUMAN DEVELOPMENT. 1st and 2nd Semesters. Lect. 3, Lab 1, 3 credits. An examination of the total life span, from conception through old age, and the developmental tasks encountered by humans.

SOWK 0356. SOCIAL WORK IN CRIMINAL JUSTICE SETTINGS. 1st and 2nd Semesters. Lect. 3, 3 credits. This course seeks to introduce the student to the role of social work in Corrections. In an effort to give a thorough introduction, theories of crime causation, past and present, will be presented. Students will be expected to analyze these theories viewed with emphasis on the effectiveness of rehabilitation programs.

SOWK 358 MENTAL HEALTH 3 Credit Hours The course is designed to give the student insight into the historical development of Mental Health services and present day delivery systems. The use of DSM 5 in professional practice is emphasized.

SOWK 0358 SOCIAL WORK IN MENTAL HEALTH SETTINGS 3 Credit hours The course is designed to give the student insight into the historical development of Mental Health services and present day delivery systems. The use of DSM IV in professional practice is emphasized.

SPAN 0101. ELEMENTARY SPANISH I. 1st and 2nd Semesters. Lect. 3, 3 credits. Elementary Spanish grammar; graded reading; introduction to Hispanic culture.

SPAN 0102. ELEMENTARY SPANISH II. 1st and 2nd Semesters. Lect. 3, 3 credits. Continuation of SPAN 0101. Prerequisite: SPAN 0101.

SPAN 0201 INTERMEDIATE SPANISH I 3 Credit hours

Detailed study of the finer points of Spanish grammar; introduction to literature written in Spanish. Prerequisite(s): one year of college Spanish or equivalent. SPAN 0102.

SPAN 0202 INTERMEDIATE SPANISH II 3 Credit hours

Continuation of SPAN 0201  
Prerequisite(s): SPAN 0201

**2022 ONLINE SUMMER COURSES \***
